

In Loving Memory

Dr. Guy Martial Njewel

1984-2023

Dr. Guy Martial Njewel Ndega passed away Friday, July 28, 2023, at Northwestern University Memorial Hospital in Chicago, Illinois. Guy was born on May 29, 1984, in Yaounde-Cameroon. He moved to the US along with his family in August 1995. He became a US citizen in 2008. He was an Oral Surgeon trained at UAMS, Columbia University (New York) and the University of Illinois in Chicago. At the time of his passing, he was a fellow at Northwestern University in Chicago. Guy was a fervent Christian and member of First Presbyterian Church of Magnolia. He was preceded in death by his grandparents. Guy is survived by his parents Pierre and Martine, his brothers Serge, Iris and wife Lexi, a host of uncles, aunts, cousins, extended family, and friends.

Many people in this area spend years without access to a doctor, medication, and other medical supplies. With the clinic building approaching completion, the greatest need is to equip the clinic and to staff it with talented health care professionals volunteering their time. Commitments to assist with medical care on an annual basis or more have been received from Dr. Marie Stella Tanje (Cleveland), Dr. Mimo Lemdja (Magnolia), Dr. Kon Njewel (Chicago), and Dr. Serge Yick (Little Rock).

Anyone wishing to donate or partner in support of this mission may do so by contacting the church office or by making a gift online through First Presbyterian Church of Magnolia website. Please designate the gift to the GUY NJEWEL MEMORIAL CLINIC. This clinic will be such a blessing to the area and such a wonderful way to honor Guy's legacy and fulfill his lifelong dream of opening a clinic while spreading Christ's love.

GUY NJEWEL MEMORIAL CLINIC

First Presbyterian Church of Magnolia established a fund to build and equip the Guy Njewel Memorial Clinic in memory and honor of Dr. Guy Martial Njewel who passed away unexpectedly in 2023. The clinic is being built in a village near Guy's final resting place in NkooKomb, Cameroon, and will provide much needed medical access, at no cost, to an underserved rural population. The clinic is scheduled to be completed and dedicated in December 2025.
